WJNEOSPCORD- WJSPC

Property	Value
Type of Polymer	Polychloroprene
Average density	160 Kg/M ³
A.S.T.M. Spec. D1056-85	2C2A1 B2 C E1
Water absorption	5% maximum
Heat resistance in °C - Consistent	85 °C
Heat resistance in °C - Intermittent	100 °C
Compression-set 50% / 22hr / 23°C / 24 Hr rec	25% maximum
Fire resistance	Conform to FMVSS 302
Resistance to cold	Good
Resistance to air and U.V. Rays	Good
Resistance to dilute acids	Good
Resistance to alkalis	Good
Resistance to animal or vegetable oils	Good
Resistance to solvents:	
Aliphatic	Average
Aromatic	Nil to weak
Chlorinated	Good
Ketonic	Nil to weak
Resistance to swelling in oil and petrol	Good
Acoustic and sound insulation	Average
Change Control Date	Change
23/09/2013	Created

Disclaimer
Please note, failure to select the correct materials or products we supply (“the Products”) may result in damage to plant, equipment or property. In some instances, it may cause death or personal injury. We are not designers and do not give advice about design related matters concerning the Products. We can help and assist with the technical specifications for the Products. In specific applications, particularly where critical conditions exist, we will try to assist you within the limitations of the services that we offer. All information supplied by us is intended as technical co-operation outlining the specifications of the different Products which we supply. To the extent permitted in law, no warranty is given in respect of any information supplied by us. The customer must satisfy themselves as to the suitability of the Products for their intended application and use. The correct fitting of Products is the responsibility of the customer. Your statutory rights remain unaffected. Save in respect of death, personal injury or fraud, our entire liability to you, however arising from the supply of Products shall be limited to the £10M indemnity amount provided by our insurers.
